

2016
Term One
SURF CAMP

Outline

The surf camp is our introductory camp to the year. It is an important opportunity for students to get to know each other and build self-confidence.

The surf camp is centered around a number of outdoor activities that put students in new and challenging circumstances in order to teach them practical skills and help them realise their own capabilities. Activities include surfing, bush walking, swimming, initiative activities, and sleep-outs. All activities are fully staffed by both JCS staff and qualified staff hired to run individual activities.

The focus of the camp is surfing. This is a fun activity but also presents a number of challenges. It also offers students the chance to try something new and prove to themselves what they are capable of when they set their mind to it. The purpose of the camp is for students to participate in and enjoy a range of educational activities that will contribute to the development of their confidence, self-esteem, motivation, skill level, fitness, initiative and team work.

The surf camp is a four day, three night camp based at the JCS Otway retreat. This rural campus is also used for our school farm program and students will have various opportunities throughout the year to participate in farm related and community based activities at the campus.
